KITTEN WELLNESS PROGRAM

Congratulations on your new kitten! The first year of your kitten's life is extremely important to their future health and happiness. Our goal is to start your kitten out right and help you keep them healthy and happy for many, many years. We have packaged our recommendations for preventive care together and are offering them at a discounted price to allow you to give your kitten the very best. To make it even more convenient, you can pay half today and half at your second visit.

STARTING AT 6-9 weeks

- ✓ Comprehensive physical exam and medical evaluations every three weeks for 4 visits. We use fear free techniques in this nose to tail exam with life-style assessment to monitor your kitten's development and identify any areas that might need special attention.
- ✓ Feline distemper combination vaccine at each visit until they are 16 weeks of age. This vaccine helps protect against four different viruses which can be fatal to cats. Even indoor cats need this protection as these viruses can travel and survive on shoes, clothes, etc...
- ✓ Rabies vaccine and certificate to comply with state and local laws. This vaccine helps protect you and your pet against rabies, a deadly neurologic virus.
- ✓ Fecal parasite screenings on your first and last visit. It is not unusual for kittens to have intestinal parasites such as roundworms or hookworms. Our fecal tests look for these as well as other parasites that could be transmitted to you.
- ✓ Feline Leukemia and FIV test to ensure your kitten is not carrying these deadly diseases.
- ✓ Toenail trim each program visit to keep those sharp kitten nails under control.
- ✓ Four months of Revolution to prevent fleas, heartworms, some intestinal parasites, and ear mites.
- ✓ \$5 discount on HomeAgain microchip identification and registration. Permanent identification so your kitten is quickly and safely returned home should they ever get lost.
- ✓ \$10 discount on the spay/neuter surgery.
- ✓ Fear Free techniques are utilized at every visit to help your kitten feel safe and comfortable at the hospital. For increased success we advise you to begin fear free preparation at home. We provide informative fear free material to help your new kitten create positive memories about the hospital and look forward to coming here for a lifetime. Additional resources can be found at www.fearfreehappyhomes.com/

Package Cost \$410

(Package value \$526)
